

Galapagos Natural Life

Luxury Class- Yacht Galapagos

NATURAL PARADISE CATAMARAN

Itinerary "A"

4 Days – 3 Nights

Day 1: Saturday

In the morning: Baltra Airport Arrival

Morning flight from Quito or Guayaquil to Baltra, Galapagos Islands. You will arrive at Baltra Island in the morning. After passing through immigration and baggage claim, you will be met by a Natural Paradise staff member and transferred to the yacht. You will be shown to your cabin where you will have some time to settle in before lunch and a welcome briefing.

In the afternoon: Highlands

Accessible by bus from Puerto Ayora, the highlands of Santa Cruz are a deep green which contrast beautifully with the dry, lower part of the islands. The predominant vegetation in the highlands are Scalesia trees which create a lush green forest. The lava tunnels, over half a mile long, are underground and walking through them is a unique, surreal experience. At this place you'll have lunch.

Afterwards: Fausto Llerena Breeding Center

You will visit “Fausto Llerena” Giant Tortoises Creeding Center in Puerto Ayora, Santa Cruz Island, where giant tortoises are bred in captivity; this is home to tortoises ranging from 3-inches (new hatchlings) to 4-feet long adults. Subspecies of the giant tortoises interact with one another, and many of the older tortoises are accustomed to humans stretching out their heads for a photo opportunity. The babies are kept until they are about four years-old and strong enough to survive on their own.

Day 2: Sunday

In the morning: El Barranco

El Barranco, also known as Prince Phillip’s Steps, is a steep, rocky path that leads up a high cliff rock face. A marvelous view can be appreciated from here. This site is also home to Palo Santo vegetation as well as red-footed boobies, short-eared owls, Galapagos storm petrels, and Galapagos doves.

In the afternoon: Darwin Bay

Visit the white-sand coral beach of Darwin Bay which includes a half mile trail (0,75km) that winds through mangroves filled with land birds. Nazca boobies, red-footed boobies, and swallow-tailed gulls, which can easily be spotted here. Further down the path we’ll find tidal pools where sea lions swim playfully. At the end is a spectacular view of a cliff.

Day 3: Monday

In the morning: Espumilla Beach

In Espumilla Beach marine iguanas lounge and the Sally Lightfoot crabs attract the hunting herons performing the dance of predator and prey right before your eyes. Snorkeling is highly recommended as you could come face to face with an octopus, moray eel, shark and a variety of other species of tropical fish.

Afterwards: Buccaneer Cove

Buccaneer Cove is a testament to the fact that Santiago Island was once a refuge for British buccaneers. These pirates would anchor in the protected bay to make repairs and stock up on tortoise meat among other things. The steep cliffs, where hundreds of seabirds perch in front of the dark red sand beach, are a magnificent site.

In the afternoon: Egas Port

Egas Port, also known as James Bay, on Santiago Island is home to the curious Galapagos hawks and quick-footed Galapagos lava lizards. The trail leads to the coastline with gorgeous tide pools and grottos full of fauna. Here the Galapagos furseals bathe in the sun. This is also a great snorkeling site.

Day 4: Tuesday

In the morning: Bachas Beach

Bachas Beach is located on the north shore of Santa Cruz and is a beach for swimming. One of the few remnants of the U.S. World War II presence in the Galapagos, a floating pier, can be seen here. You may see flamingos, Sally Lightfoot crabs, hermit crabs, black-necked stilts, and whimbrels. Sea turtles also nest on the beach.

Afterwards: Baltra Airport Departure

After this final visit, you will be transferred to the Baltra airport in time for your flight back to the mainland.
