

Galapagos Natural Life

Tourist Superior - Galapagos Yachts

Golondrina - YACHT

ITINERARY DAY BY DAY

Itinerary C 8 days / 7 nights

DAY 1 - FRIDAY

In the morning: Airport

This island was a strategic point during the Second World War. It is the main airport for the Galapagos Islands where tourists and colonists arrive and depart. At the Arrival at Baltra Airport, our naturalist English speaking guide will assist you. Transfer to the yacht. Welcome and briefing.

In the afternoon: Bachas Beach

After lunch, disembark (wet landing) in the Bachas Beach, located in the north shore of Santa Cruz, this is one of the main nesting sites of sea turtles and the crystal waters invite you to relax and swim. Return to the yacht. Dinner and briefing for next day.

DAY 2 - SATURDAY

In the morning: El Barranco

Also known as Prince Philip's Steps, El Barranco's steep, rocky paths lead up to a high cliff-face. A marvelous view can be appreciated from here. This site is also home to Palo Santo vegetation as well as red-footed boobies, short-eared lava owls, Galapagos swallows storm-petrels and Galapagos Doves. Hiking:2km., dry landing. Lunch on board.

In the afternoon: Darwin Bay

This enormous bay dominates the islands and like the Prince Philip's Steps, this site is the home of large colonies of frigate birds and a wide variety of seabirds. Briefing and dinner on board.

DAY 3 - SUNDAY

In the morning: Bartolome

Lava formations and ash cones can be seen on this Island. A beautiful view of the nearest bays is waiting at the high part, after climbing a wood staircase for 30to40 minutes to the top (Walk up to the top of volcano 114m, 375 wooden steps). This is one of the most visited Islands because of its unique and famous Pinnacle Rock that consists of an extinct volcano with a variety of red, orange, black and even green volcanic formations. Time for snorkeling and possible sightings of the Galapagos Penguin. Hiking:2kms. Dry and wet landings.

In the afternoon: Sullivan Bay

You can swim and snorkel here with seals and penguins. the landing is on a beautiful white sand beach where you will see lava formations. Wet landing. Briefing and dinner on board.

DAY 4 - MONDAY

In the morning: Plazas Island

This small island with steep cliffs was formed by rising lava and is now covered by Opuntia cacti. This Island is home to one of the largest sea lion colonies as well as colorful yellow and red land iguanas. Many birds like the tropicbirds and fork-tailed seagulls rest on the cliffs. The most characteristic plant is the Sesuvium, during the rainy season its color is a greenish to yellowish tone and in the dry season (end of june through January) a bright red. Hike:2 1/2km. Dry landing. Lunch on board.

In the afternoon: Santa Fe

Colonies of sea lions, land iguanas, fork-tailed seagulls, terns and petrels are observed. A trail leading into the heart of the island takes you to a forest of giant cactus and palo santo trees. After this visit on land, you can swim and snorkel. Wet landing. Briefing and dinner on board.

DAY 5 - TUESDAY

In the morning: Leon Dormido

After breakfast, we visit Kicker Rock a giant rock was formed by a volcanic eruption. A narrow canal cuts through it and allows the passage of small boats. This rock is the home of many sea birds and is considered a great snorkeling and diving site. No landing.

Afterwards: Brujo Hill

This site is located on the north shore of San Cristobal Island. This eroded hill and its surroundings present one of the most picturesque beaches in the Galapagos with its main attraction that is the coral sand beach and its wildlife includes sea turtles, rays, and various types of Booby Birds. Lunch on board.

In the afternoon: Lobos Island

The most important colony of sea lions and blue-footed boobies is on this Island. The scenery is beautiful and it is the perfect spot to snorkel. Briefing and dinner on board. Return to the yacht. Dinner and briefing for next day.

DAY 6 - WEDNESDAY

In the morning: Suarez Point

Breakfast. This natural is home for see blue-footed boobies, masked boobies, colonies of marine iguanas, fascinating albatross from April to June, sea lions, Galapagos doves and Darwin finches. There is another natural attraction: the lava blowhole, spurting water high into the air. Hike: 3km. Dry landing. Lunch on board.

In the afternoon: Gardner Bay

On the eastern side of the island, is the breeding site of nearly all of the world's 12,000 pairs of Waved Albatrosses. It takes 45minutes by boat to reach this site. The white sand beach is home to a group of sea lions. Swimming and snorkeling are excellent possibilities here. Wet landing.

GARDNER ISLET. - Sea lions, marine turtles and finches can be seen here.

OSBORN ISLET.- This small island to the southeast of Española is a marine visit for snorkeling and swimming. Dinner and briefing for next day.

DAY 7 - THURSDAY

In the morning: Cormorant Point

Breakfast. This site hosts a large flamingo lagoon where other birds such as common stilts, White-cheeked Pintails can also be seen. Olivine crystals in the beach make to name as the Green Beach. To the other side of the island, there is very fine white sand beach where marine turtles nest from December to May. Hike:2km. Wet landing.

Afterwards: Devil's Crown

This volcanic crater has been eroded by the waves leaving the northern and southern sides poking out of the water. The coral formations make the underwater scenery impressive for snorkelers where there are schools of multi-colored fish, sharks and sea turtles. No Landing.

In the afternoon: Charles Darwin Station

The Darwin Station is part of the Charles Darwin Foundation for the Galápagos Islands, an international non-profit organization dedicated to scientific research in the Galápagos Islands since 1959. This visit offers an excellent introduction to the Islands, their origin and their formation. Learn about the Galapagos giant turtles breeding. Dinner and briefing for next day.

DAY 8 - FRIDAY

In the morning: North Seymour / Airport

This Island is known for its large number of blue-footed boobies, colonies of magnificent frigate birds, fork-tailed seagulls, marine iguanas and sea lions. The island is characterized by its arid vegetation zone, been palo santo (holy wood) the most remarkable tree in this island. Wet landing.

After this visit, transfer to Baltra Airport for your return flight to Guayaquil/Quito.

This is the end of the trip.
